

# CRUCIAL DDR4 DESKTOP MEMORY

## Installs as easy as 1-2-3.

Boost your computer's speed in minutes  
with Crucial DDR4 memory.

There's an easy cure for a slow computer: more memory. Designed to help your DDR4 system run faster and smoother, Crucial® DDR4 Desktop Memory is one of the easiest and most affordable ways to improve performance. Load programs faster. Increase responsiveness. Run data-intensive applications with ease and increase your desktop's multitasking capabilities.

Make everything on your  
computer faster

Multitask with ease

Easy to install

## Make everything on your computer faster

Memory is a component in your computer that enables short-term data access, which your desktop relies on for moment-to-moment operations such as loading apps, browsing the web, or editing a spreadsheet. Installing more memory in a slow PC is the easiest way to improve system performance quickly.

## Multitask with ease

If you're like us, you use your computer to do lots of things at once. You might be editing a document while also looking at pictures and browsing the internet. This naturally leads to a performance problem: every app you're running requires memory and competes for a limited pool of resources. Overcome this by installing high-density modules in each memory slot on your desktop for seamless multitasking.

## Install with ease – no computer skills required

With just a screwdriver, your owner's manual, and a few minutes of time, you can install memory – no computer skills necessary. Just watch one of our three-minute install videos, and we'll walk you step-by-step through the process. Don't pay a computer shop to do something you can do yourself in minutes!

## Maximize the value of your system

At a fraction of the cost of a new system, a memory upgrade is one of the most affordable ways to increase performance. Get more out of your desktop by giving it the resources it needs to perform.

## The Micron difference – tested reliability you can trust

As the vertically integrated consumer brand of Micron, Crucial is trusted by millions for reliability, performance, and compatibility. Unlike module assemblers, we are a Micron brand, which means we have a deeper level of engineering collaboration to squeeze every ounce of performance from our products without compromising reliability. Our superior memory products are backed by a limited lifetime warranty<sup>1</sup>, training, documentation, and video assistance, customer support from an experienced sales network, and trusted pricing and inventory consistency. When it comes to memory, don't settle for less.

## Available parts

Crucial desktop memory is available for nearly every system. View our complete offering at [www.crucial.com](http://www.crucial.com).

Crucial® DDR4 Desktop Memory	
Density	4GB, 8GB, 16GB, 32GB
Speed	2400MT/s, 2666MT/s, 3200MT/s
Voltage	1.2V
Pin count	288-pin

1. Limited lifetime warranty valid everywhere except Germany, where warranty is valid for ten years from date of purchase.
